PROFESSIONAL SUMMARY

Data Analyst skilled in Python, SQL, Power BI, and Excel with hands-on Project experience in Data Modeling, EDA, and KPI dashboard development. Proven ability to clean and analyze large datasets, uncover actionable business insights, and present findings to stakeholders. Seeking a data analyst role to drive data-driven decision-making and deliver measurable business value.

EDUCATION

SRM ARTS AND SCIENCE COLLEGE

Bachelor of Science in Computer Science with Artificial Intelligence | 7.5 CGPA

University of Madras

Jun 2023 – May 2026

Wisdom Vidhyashram Matric Hr.Sec. School

Computer Science

State board, TN

Jun 2021 – Mar 2023

TECHNICAL SKILLS

Programming Languages: Python, SQL, DAX

Data Analysis & Visualization: Power BI, Excel, Pandas, Statistical Analysis

Tools & Tech: GitHub, MySQL, Jupyter Notebook, Google Colab, ETL, EDA

SIMULATIONS

Data Analyst - Virtual Job Simulation

Deloitte

May 2025

Forage

- * Completed data cleaning tasks on simulated datasets as part of structured business scenarios
- * Built interactive dashboards in Power BI and Excel to visualize key metrics as part of simulation exercises
- * Analyzed sales datasets using Python and SQL to identify trends and presented findings in structured reports.

PROJECTS

HR Analytics Dashboard | Link

Oct 2025 – Nov 2025

- Built an HR Analytics Dashboard in Power BI to analyze attrition and workforce trends of 1,403 employees across 7 departments
- Tracked key KPIs like Attrition Rate (15%), Average Age, and Salary Distribution using measures and dynamic slicers
- Identified high-risk attrition segments by analyzing Job Role, Gender, and Experience to support data-driven HR decisions.

Customer Behavior Insights Analysis | Link

Dec 2025 – Feb 2026

- Performed EDA on 3,900 transactions across 18 variables using Python (Pandas), uncovering spending patterns and high-value customer segments.
- Built a Python ETL with feature engineering and MySQL integration, delivering clean, production-ready data sets for analysis.
- Identified Express shipping customers (73% higher spend) and discount-driven segments using cohort analysis, enabling targeted marketing and loyalty program design.
- Delivered BI report with recommendations on subscription optimization, discount policy, and product positioning to drive retention and revenue growth.
